■ Product repair agreement

Plat'Home Co., Ltd. (hereinafter referred to as "Plat'Home") stipulates the agreement of repair of this product ("Product").

- Article 1

Repairs
- Repairs at Plat'Home refers to service to recover the Product functions by replacing faulty parts and components when Plat'Home ascertains that the Product (hardware only) is faulty.
- Article 2

Send back repairs
- Send back repairs refers to a repair service where the customer delivers or sends an item for repair to Plat'Home.○ン3 On-site repairs
- Article 3

On-site repairs
- On-site repairs refers to our technician or a technician appointed by Plat'Home visiting a site where the faulty product is installed and carrying out repair service.
- Article 4

Repair inquiries/Office hours
- This information is provided in the Warranty and Manuals attached to the Product, and can also be found on our website.
- Article 5

Cost
- Plat'Home will individually quote for the cost of any repairs pertaining to a send back repair or an on-site repair. Should a repair be canceled following our receipt of the item to be repaired for a send back repair or after an order placement for an on-site repair, the customer will bear any inspection and shipment costs or travel and accommodation costs, respectively.
- Article 6

Repair acceptance period
- Plat'Home prescribes repair acceptance periods for individual products. A repair acceptance period refers to the period during which Plat'Home will accept a request for repair, regardless of whether it is an at-cost or a free-of-charge basis. Plat'Home reserves the right to turn down any requests for repair after the period has elapsed. The repair acceptance period for this Product is four (4) years. Please note that due to the termination of production of certain key parts or components, termination of standards employed or any other social conditions, this period may be shortened without prior notice.
- Article 7

Ownership of faulty items
- The ownership of any faulty parts or products replaced for repair or replacement will be transferred to Plat'Home when repair work or replacement is completed.
- Article 8

Replacement parts
- 1) Should a replacement part be not available due to discontinuation, etc. we may replace a faulty part with an equivalent or one with an improved performance. In replacing a faulty part with an equivalent or one with an improved performance, Plat'Home may request the customer to change the software version, including the operating system.

2) In relation to replacement parts, Plat'Home may use a refurbished part whose operation has been confirmed by the manufacturer and Plat'Home in replacing a faulty one.
- Article 9

Warranty of repaired Product
- After the repair or replacement of a Product has been completed, if the same phenomenon occurs at the same place, Plat'Home will repair it again for a period of three months following the date of completion of repair. However, if the Repair Acceptance Period elapses within three months after the date of completion of repair, the remaining period of the Repair Acceptance Period will apply to the free-of-charge re-repair period.
- Article 10

Out of scope of repair
- Under the following conditions, we may turn down a request for repair:
- 1) If the Product is used outside Japan,

2) If for confidentiality or other reasons, the Product or faulty parts cannot be moved from the installed location,

3) If the customer requires Plat'Home to prevent any leakage of data in storage media,

4) If there is no description of failure given or no assistance for confirmation of failure is provided by the customer,

5) If the Product has been repaired, adjusted, modified, etc. by any technician other than our technician or a technician approved by Plat'Home, or by the customer,

6) If any hazardous materials to the human body are attached to the Product or so assumed, or

7) If the Product was resold or transferred via an Internet auction or a personal sale, with missing items such as the manual, warning sheet, precautions for use, etc. and such resale or transfer was performed without a sufficient explanation on how to use the Product or with details of the Warranty.
- Article 11

Revision of agreement
- Plat'Home may revise the contents of this agreement without prior notice to customer or his or her approval. In such a case, the contents of this agreement will be those after such revisions. Plat'Home will disclose the revised contents of the agreement on our website, etc.
- Article 12

Miscellaneous
- 1) Should any dispute arise in relation to the contents provided in the agreement occur between the customer and Plat'Home, both parties will solve such a dispute using the principle of good faith.

2) In the preceding item, any dispute arising out of or in connection will be subject to the exclusive jurisdiction of the Tokyo District Court in the first instance.

3) The warranty offered on the basis of this agreement will be governed by Japanese law.

<3>

Warranty

Model	
Serial Number	
Warranty period	One year for send back repair to Plat'Home Co., Ltd. counted from the date of shipment from Plat'Home.
Date of shipment from Plat'Home	

*Please keep the Warranty in a safe place, as it will be needed when requesting any repairs to the product.

*Agreement with regard to repair and maintenance can be found at the back of this leaflet.

*Accessories are not under the scope of the warranty. We will supply any missing items or replace faulty accessories within 30 days from date of shipment from Plat'Home.

Services included in package

This product package includes subscription services and hardware maintenance services that will be effective for one year from the date of shipment. The subscription service also includes the right to use the IoT gateway remote management service. To use this service, it is necessary to contact for use from the URL below:

<https://www.plathome.com/contact-us>

Agreements

■ Agreement for use of Product

Plat'Home Co., Ltd. (hereinafter referred to as "Plat'Home") stipulates the agreement of use of this product ("Product") as follows:

1. Disclaimer

Plat'Home is not liable for any economic damage caused by the operation of this Product.
2. Limitation of use

This Product is general industrial equipment. It cannot be used for military purposes, nuclear power control or as a life-support system.
3. Initial failure of accessories and missing items

Should there be any missing items or initial failures, please request a remedy within 30 days, which is counted from the date of shipment from Plat'Home.
4. Scope of compensation for open source software

This Product uses open source operating systems. For any bug fixes in system operations, bug fixes by individual open source communities will be applied with the exception of any parts uniquely integrated by Plat'Home. Therefore, updates for failures in kernels, etc. will be provided after those by relevant open source community.

<2>

■ Product warranty agreement

Plat'Home Co., Ltd. (hereinafter referred to as "Plat'Home") stipulates the agreement of warranty of this product ("Product") as follows:

- Article 1

Product warranty
- In the Product Warranty, Plat'Home will perform a repair in one of the following ways in accordance with this agreement, in addition to the repair agreement to be stipulated separately insofar that Plat'Home ascertains the Product is faulty during the period given in the Warranty attached to the Product starting from the date of shipment.
- 1) If the Warranty stipulates an on-site repair:

Our technician or a technician appointed by Plat'Home will visit the site where a faulty Product is installed and perform a repair.
- 2) If the Warranty stipulates a send back repair or if no on-site repair is stipulated:

The customer will deliver or send the item to be repaired to Plat'Home, and we will perform any due repairs.
- Article 2

Product subject to Warranty
- Product subject to this Warranty is described in the Warranty attached to the Product.
- Article 3

Product not subject to Warranty
- Even if the main body of the Product has our Product name, logo, etc. the Product Warranty will not be applied insofar as any modifications to product form (appearance, internal configuration, etc.) and/or accessories (manual, Warranty, etc., including the contents of attached text) have been made and the Product is different from standard shipment conditions.
- Article 4

In addition, Plat'Home will bear no liability for any damage.
- Consumables and components having a lifetime

The Product contains consumables and components having a lifetime. Consumables are not subject to the Product Warranty. For components having a lifetime, if they are judged to have reached their life at the time of repair, the cost for a replacement will be charged.
- 1) Consumables

Any media including floppy disks and CD-ROMs, batteries and other items defined by Plat'Home as consumables and disclosed on our website, etc.
- 2) Components with a lifetime

Hard disk drives, optical drives, fans, power supply units, AC adapters, compact flashes, eMMC, and other components defined by Plat'Home as components having a lifetime and disclosed on our website, etc.
- Article 5

Conditions for the application of Warranty
- Prerequisites for applying this Warranty are as follows:
- 1) The customer properly uses the Product in accordance with written operating environments and conditions as per this agreement, repair agreement separately stipulated, manuals, warning sheets and precautions prior to use attached to the Product or publicly announced on our website.

2) The customer agrees that Plat'Home does not guarantee any data, programs, license information and settings recorded on the Product's storage media (hard disk, etc.) and/or hardware and that Plat'Home bears no responsibility for any loss, damage or changes to such data.

3) The customer will extend assistance to a request for the confirmation of details of a failure in terms of repair such as identification of problem and the presentation of log files and setting information, in addition to bearing the cost for packing and delivery of the items requested to be repaired to a destination specified by Plat'Home.
- Article 6

Warranty not applicable
- Within the Warranty period, the cost of operational expenses and the cost of parts/components necessary for repair will be on an at-cost basis:
- 1) If the Warranty is not presented at the time of a request for repair or the date of shipment from Plat'Home cannot be confirmed,

2) If information given on the Warranty is different from actual facts,

3) If the customer requires the submission of a report different from our format or for a problem report with a detailed analysis,

4) If failures or damages were caused during transportation or carrying by the customer or any third party following delivery (handover to the customer) of the Product,

5) If failures or damages were caused by a fire, earthquake, typhoon or any other natural disaster, a war, conflict or any other human errors, or operational conditions such as pollution or abnormal voltage,

6) If consumables or components having a lifetime such as batteries and compact flashes that are judged to have reached their life are replaced,

7) If failures were caused by other equipment connected to the Product,

8) If failures or damages were caused by misuse or improper repair/modification, incorrect connection, incorrect insertion, or use of a power supply not compliant with our specifications, or

9) If failures or damages were caused by customer's operating conditions or methods of maintenance and control (example: failures caused by dust, rust, mold, contamination by insects, etc.)
- Article 7

Extension of Warranty, etc.
- Plat'Home offers additional services exceeding the standard Product Warranty such as an extension of the Warranty period, on-site repair and support services on an at-cost basis. For further details of additional services and associated costs, please contact Plat'Home sales or the distributor from which the Product was purchased .
- Article 8

Warranty of options and software
- 1) For terms of warranty for product options, those of the Product that customer installs will apply. The warranty period will be the warranty period given for the options or the remaining warranty period of the Product, whichever is shorter.

2) No warranty for pre-installed software (including operating system and general software) to this Product is included in the Product Warranty. In accordance with permission of use for individual software and license agreements, they are provided as-is.
- Article 9

Limited Warranty
- The limit of warranty by Plat'Home based on this agreement with regard to the Product the customer uses is the purchase price of the Product the customer paid or repair and/or replacement cost of faulty parts that occurred under the application conditions of this agreement, whichever is lower.
- Otherwise, Plat'Home will not be held liable under any circumstances for any direct or indirect, accidental or subsequent, or exceptional damages arising from the employment of the Product, regardless of its usage or non-usage.
- Article 10

Obligation of notification
- Should the customer not complete the user registration, Plat'Home holds no obligation to notify the customer of any defects in the Product, etc.
- Article 11

Revision of agreement
- Plat'Home may revise the contents of this agreement without prior notice to customer or his or her approval. In such a case, the contents of this agreement will be those after such revisions. Plat'Home will disclose the revised contents of the agreement on our website, etc.
- Article 12

Miscellaneous
- 1) This Product Warranty is effective only within the territory of Japan.

2) Should any dispute arise in relation to the contents provided in the agreement between the customer and Plat'Home, both parties will solve such a dispute using the principle of good faith.

3) In the preceding item, any dispute arising out of or in connection with the contents provided in the agreement will be subject to the exclusive jurisdiction of the Tokyo District Court in the first instance.

4) The warranty offered on the basis of this agreement will be governed by Japanese law.

About Software

The operating system of this Product is installed with Debian GNU/Linux, as developed by the Debian Project and associated supporters.

At the time of shipment, the Product is also installed with free and open source software, which is classified in the main category according to Debian Free Software Guidelines.

Main open source licenses included with the Product at the time of shipment are:

Main open source licenses included with the Product at the time of shipment

- GNU General Public License
- GNU Lesser General Public License
- GNU Library General Public License
- Modified BSD License
- Perl Artistic license
- zlib-style licenses
- OpenSSL License

Items included in the package

① 1 x OpenBlocks IoT VX2

② 1 x USB Type-A microUSB Cable

③ 1 x AC adapter

④ 1 x Heat-radiation and installation bracket (with mounting screws)

⑤ 1x Start-up Guide

⑥ 1x EU Declaration of Conformity

All items apart from the main body of the OpenBlocks IoT VX2 are accessories that are not subject to the Warranty.

Should there be any missing items or an initial failure, these items will be subject to the supply of said missing items or replacement. As a User Manual is not included, please download a copy from our website: <https://www.plathome.com/>***

About the handling of Product

The type of built-in battery in this Product is as follows:

Battery type	
CR2032/K5GK	coin lithium battery

Warning	⊘	Do not throw the Product into a fire. Otherwise, the built-in battery may cause a leakage, explosion or fire.
	⊘	Do not allow liquid like water, pieces of metal or inflammable foreign objects enter the SIM card slot or the SD card slot of the Product. Otherwise, a fire, burn, injury or electric shock may result.
	ⓘ	When taking aboard an airplane, turn the Product off. As there are restrictions about the Product's use on an airplane, follow all instructions of the airline. Otherwise, the Product may adversely affect the electronic equipment of the airplane. Please note that if carrying out any prohibited act in using the Product on an airplane, it may be punishable by relevant laws and regulations.
	ⓘ	When this Product is used in a hospital or a medical institution, follow all relevant instructions. Turn the Product off in any areas where use is prohibited. Otherwise, an adverse effect on electronic devices or electric medical equipment may result.
Caution	ⓘ	*Extra caution with electronic devices Hearing aids, implanted pacemakers, implantable cardioverter defibrillators, other electric medical equipment, fire alarms, automatic doors, other automatic control equipment, etc.
	⊘	Do not use the Product if it could affect electronic equipment in vehicles. If this Product is used in a vehicle, electronic devices may be influenced in rare cases, depending on the vehicle type, resulting in a negative effect on safe driving.
	⊘	Do not allow magnetic cards be near this Product. The magnetic data on cash cards, credit cards, telephone cards or floppy disks may be erased.
	⊘	Do not use any batteries other than those specified. Otherwise, leakage, explosion or combustion may result.
	ⓘ	Do not recharge, disassemble or throw used batteries into fire. Otherwise, leakage, explosion or combustion may result. When batteries are discarded, dispose of them by following the directions of relevant municipalities.

About the handling of AC adapter

Warning	⊘	Do not cover the AC adapter in pieces of cloth or a comforter. Muffled heat, resulting in a fire or failure.
	⊘	Do not operate the Product at a power supply and a voltage other than that specified. Otherwise, a fire or failure may result. AC adapter: 100-240 VAC (For use with a residential AC wall outlet only).
	⊘	Do not use an off-the-shelf "Travel Voltage Converter Transformer". A fire, electric shock or failure may result.
	⊘	Do not use the AC cord and AC adapter if the cord is damaged. A fire, burn or electric shock may result.
Caution	ⓘ	Upon hearing the sound of thunder, do not touch the AC cord and AC adapter. An electric shock, etc. may result.
	⊘	Do not plug in or unplug the AC cord and AC adapter plug or terminals with wet hands. An electric shock or failure may result.
	ⓘ	If any dust becomes attached to the plug, hold the AC cord, remove the plug from wall outlet and clean with a dry cloth. Otherwise, a fire may result.
	ⓘ	When the AC cord is plugged into a wall outlet, securely insert it, while using extra caution so that no conductive foreign matters (pencil lead or pieces of metal) contact the plug or terminals of the AC cord. Otherwise, an electric shock or fire, burn or failure due to a short circuit may result.
Caution	ⓘ	When the AC adapter is connected or disconnected, do not apply extra force and put in/pull out the connector horizontally and in a straight direction. Otherwise, a fire, burn, injury or electric shock may result.
	ⓘ	If not used for a long period of time, remove the plug from wall outlet while holding the main body of the AC cord. Otherwise, an electric shock, fire or failure may result.
	ⓘ	In the case when water or some other liquid enters the Product, immediately hold the AC cord and unplug it from wall outlet. Otherwise, an electric shock, smoke or fire may result.
	⊘	In the case when water or some other liquid enters the Product, immediately hold the AC cord and unplug it from wall outlet. Otherwise, an electric shock, smoke or fire may result.
Caution	⊘	Keep body parts such as hands or fingers from touching the plug. Otherwise, a burn, electric shock, injury or failure may result.
	ⓘ	When removing the AC cord from wall outlet, hold the plug to unplug, if the cord is pulled, it may be damaged or result in a fire or electric shock due to damage to the terminals.

<7>

Safety precautions

*Before starting to use the Product, carefully read the safety precautions section and use the Product properly. After a thorough reading, store in a safe place.

*Precautions given herein describe contents to proactively prevent damage to users and other persons, in addition to any assets. Please comply with all of them.

*Plat'Home assumes no responsibility for any damage to a customer or a third party caused by any communication or other missed opportunity due to this Product's failure, malfunction or error.

Explanations of signs

The classification of the following signs explains the degree of damage and loss that may be caused by not complying with the indication by signs and/or by misuse. Make sure to fully understand the meaning of these signs before reading the main text.

	"Danger" item describes an immediately dangerous condition where, if the Product is handled or operated improperly, it could result in an injury to personnel or even the death.
	item describes a potentially dangerous condition where, if the Product is handled or operated improperly, it could result in an injury to personnel or even the death.
	"Caution" item describes a potentially dangerous condition where, if the Product is handled or operated improperly, it could result in a minor or intermediate injury to personnel.

Explanation of pictorial indications

The following classification of pictorial indications describes what the user should comply with. Make sure to fully understand the meaning of these signs before reading the main text.

	"Prohibition" item describes prohibited items (what should not be done).
	It indicates that the action based on the indication are fully obligatory (must be carried out).

About the handling of Product, SIM card, AC adapter and SD card

Danger	⊘	Do not use or leave the Product in a location where temperatures can be high (close to a fire, near a heater, under direct sunlight, in a car under a burning sun, etc.) Otherwise, deformation or failure of the Product, or a part of the case may overheat, resulting in a burn.
	⊘	Customer should not repair the product in the form of disassembly, modification or soldering. A fire, injury or electric shock or a failure may result. Leakage, heat emission, fire, explosion of the built-in battery may also result. Any modification of this Product violates the Radio Act and is subject to an applicable punishment.
	⊘	Do not allow the Product to become wet. If the Product is left in a wet condition after the entry of water or any other liquid, it may result in heat, electric shock, fire, injury or failure. Use extra caution with the location of use and handling of the Product.
	ⓘ	Do not use any AC adapter other than the one supplied with the Product or do not apply the AC adapter attached to this Product to any other products. Otherwise, heat emission, fire or a failure of the Product may result.

Warning	⊘	Do not put this Product or AC adapter in cooking appliances (microwave oven, etc.) or a high pressure vessel (pressure cooker) or on an electromagnetic cooker (IH cooker). Leakage, heating, explosion or combustion of the built-in battery or heat/smoke generation, combustion or failure of this Product or AC adapter may result.
	⊘	Do not drop or throw the Product, which could cause a strong shock. Leakage, heating, explosion or combustion of built-in battery or a fire, electric shock or failure may result.
	⊘	Keep the external I/O terminals, AC adapter plug, USB console cable plug or USB cable plug away from water and other liquids. Avoid conductive foreign matters (pencil lead, pieces of metal, etc.) from making contact or entering the Product. A fire or failure due to a short circuit may result.
	ⓘ	In a place where inflammable gas or dust may be generated from propane gas or gasoline (such as a gas station), always turn the Product off in advance. Otherwise, gas may be ignited. If the Product is used in a place where inflammable gas or mineral dust may be generated, an explosion or fire may result.
Caution	ⓘ	If any abnormal conditions are noticed such as strange sounds, smoke or odors during operation or in storage, take the following action: 1. Turn the Product off. 2. Please unplug the AC adapter with the plug, not the power cable on the way. If the Product is used under abnormal conditions, a fire or electric shock may result.
	ⓘ	When batteries are placed in the Product, use extra caution with the direction of the battery (positive and negative) and install as indicated. If set in an incorrect direction, the battery may explode, leak liquid or cause a fire.
	⊘	Do not place the Product on an unsteady base, tilted surface or any other unstable place. Otherwise, the Product may drop or fall, resulting in an injury or failure.
	⊘	When removing the product from the power supply.Hold the plug and remove it. If the AC cord is pulled, it may be damaged or result in a fire or an electric shock due to damage to the terminals.
Caution	⊘	Depending on the operating environment, the Product may become hot. To avoid the risk of a burn, do not touch the bottom of the main body.

<6>

To safely use IoT equipment

Communication security tends to be ignored. Unlike the Internet use where traditional people intervene, in IoT equipment, machines exchange information automatically, so it tends to overlook in communication security. Communication security tends to be ignored.

In this section, some minimum requirements to be considered are described:

1. For log-in setting of IoT equipment, make sure to change the default password at the time of shipment.
2. Regularly carry out security updates of equipment connected to the Internet.
3. Before starting operation of IoT equipment after a long period of operation suspension, make sure to perform start-up inspections.
4. Actively introduce encryption technology in terms of communication.
5. If possible, introduce authentication technology to confirm if the hardware is genuinely connected or not.

Important Regulatory Information

FCC STATEMENT This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: •Reorient or relocate the receiving antenna. •Increase the separation between the equipment and receiver. •Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. •Consult the dealer or an experienced radio/ TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference. 2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. FCC RF Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter. To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. CE Mark Warning This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures. RF Exposure Information: This device meets the EU requirements (1999/5/EC Article 3.1a) on the limitation of exposure of the general public to electromagnetic fields by way of health protection. The device complies with RF specifications when the device used at 20 cm from your body. Restricted to indoor use. National Restrictions: In the part of the country / region that the use of Bluetooth® / wireless LAN function is limited. If you wish to use abroad, please check the conditions of the laws and regulations of the country / region. Canadian Compliance Statement This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: 1) This device may not cause interference, and 2) This device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: 1) L'appareil ne doit pas produire de brouillage 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement Caution: 1) The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems; 2) For devices with detachable antenna(s), the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall be such that the equipment still complies with the e.i.r.p. limit; 3) For devices with detachable antenna(s), the maximum antenna gain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits specified for point-to-point and non-point-to-point operation as appropriate; and The high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices. DFS (Dynamic Frequency Selection) products that operate in the bands 5250- 5350 MHz, 5470-5600MHz, and 5650-5725MHz. Avertissement: 1) Le dispositif fonctionnant dans la bande 5150-5250 MHz est réservé uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux; 2) Le gain maximal d'antenne permis pour les dispositifs avec antenne(s) amovible(s) utilisant les bandes 5250-5350 MHz et 5470-5725 MHz doit se conformer à la limitation P.E.R.E.; 3) Le gain maximal d'antenne permis pour les dispositifs avec antenne(s) amovible(s) utilisant la bande 5725-5850 MHz doit se conformer à la limitation P.I.R.E. spécifiée pour l'exploitation point à point et non point à point, selon le cas.

The Radio Act prohibits outdoor use of IEEE802.11a/ac (W52/W53).

BT and wireless LAN functions of this Product conform to domestic Japan standards, FCC standards and EC directives and have acquired certification. In some countries and regions, the use of BT/wireless functions may be restricted. When this unit is used overseas, please check the laws, regulations and other conditions of the relevant country/region.

Other notes

- If you use DC Wide input, the connection of the following or equal external noise filter is necessary.
Recommend noise filter: SNR-10-223-T
- Storage media to be equipped with by this product is eMMC. It is finite life part limited in the write-in number of times. Even if there is during a term of a guarantee when it is confirmed to reach the write-in upper limit, time of the repair will be charged.
- When you install this product in the environment where ambient air temperature exceeds 40 °C, please attach the heat dissipation / installation bracket what attached in the package.

<8>
